I don't believe that lobbyist should be able to hamper the success of XM Satellite radio just because they feel as though they are going to lose their monopoly of radio broadcasting stations. It is horrible that big businesses like Clear Channel own over 1,000 stations and others like it that homogenize the radio playing the same songs on every stations at the same time over and over since they are with the record companies trying to sell mediocre "artists" cds being chameleonic changing with the fads.
